Applicant has withdrawn new sections [0008, 0010-0013, 0018, 0021, 0024, 0037, 0038, 0042-0044], and re-inserting original sections. The attached specification, labeled OA1, is corrects the sections that are objected to. Similarly, copies of original figures are submitted, and figures submitted with the preliminary amendment are canceled. Claims 1-30 stand rejected under 35 U.S.C. 112, as they contain subject matter not supported by the Specification, namely sections [0008, 0010-0013, 0018, 0021, 0024, 0037, 0038, 0042-0044].

Applicant has currently amended the claims removing any references to the new material objected to, namely 802.11b/g, digital communications, wireless network, etc. However, it should be noted that while 802.11b/g was not specifically taught in the original application, the original specification does teach wireless LANs, on page 7 line 8; wireless RF router 42, page 18, line 8; and a computerized controller that is a personal computer 80 page 18 line 10. Claims 15-17 stand rejected under 35 U.S.C. 101 as they recite a human being.

Claims 15-17 are currently amended to correct this oversight.
